#### MONTHLY PROGRESS REPORT

#### 1.0. INTRODUCTION

The Gol, recognizing that long-term rejuvenation of the river Ganga will have significant social and economic benefits on the lives of the 500 million people living along its basin, has identified cleaning of the river Ganga as one of its priorities. For this purpose, in May 2015, the Gol approved the flagship Namami Gange programme for cleaning, rejuvenation, and protection of the river Ganga. In January 2016, the Gol approved a hybrid annuity model to implement STP projects under the Namami Gange programme on a PPP basis.

Subsequently, the MoWR issued the River Ganga (Rejuvenation, Protection and Management) Authorities Order, 2016 (Ganga 2016 Order) to constitute various authorities to assist the GoI in achieving its aim of effective abatement of pollution in the river Ganga. The Ganga 2016 Order applies to all states in the catchment of the river Ganga basin, including Uttar Pradesh. The Ganga 2016 Order revised the legal status of NMCG (which was initially constituted as a registered society under the Societies Registration Act, 1860) to an authority constituted under the Environment (Protection) Act, 1986 and designated NMCG as the nodal agency for the implementation of the Ganga 2016 Order.

Rapidly increasing population, rising standards of living and exponential growth of industrialisation and urbanisation have exposed water resources, in general, and rivers, in particular, to various forms of degradation. The mighty Ganga is no exception. The deterioration in the water quality impacts the people immediately. Ganga, in some stretches, particularly during lean seasons has become unfit even for bathing. The threat of global climate change, the effect of glacial melt on Ganga flow and the impacts of infrastructural projects in the upper reaches of the river, raise issues that need a comprehensive response.

In the Ganga basin approximately 12,000 million litres per day (MLD) sewage is generated, for which presently there is a treatment capacity of only around 4,000 MLD. Approximately 3000 MLD of sewage is discharged into the mainstream of the river Ganga from the Class I & II towns located along the banks, against which treatment capacity of about 1000 MLD has been created till date.

The Uttar Pradesh Jal Nigam (Jal Nigam) is a statutory body constituted under the Uttar Pradesh Water Supply and Sewerage Act, 1975, and has the power to develop, maintain and regulate water supply and sewerage works in Uttar Pradesh. With a view to implement

the Namami Gange programme and the Ganga 2016 Order, the Jal Nigam, in association with the NMCG, has decided to undertake the development of an STP with a proposed capacity of 50 MLD along with other Facilities and Associated Infrastructure at Varanasi on a PPP basis, through a hybrid annuity model. While the Jal Nigam will be the principal executing agency and bidding authority for the Project, NMCG will be responsible for making payments to the Concessionaire.

The objectives that NMCG and the UP Jal Nigam wish to achieve through the Project is mentioned in **Figure 1**.

Intercept raw sewage flowing into the river Ganga and divert the raw sewage to the Varanasi STP;

Treatment of the raw sewage at the Varanasi STP;

Implement viable technologies and international best practices for development, operation and maintenance of the Varanasi STP and other facilities and

Demonstrate large scale private sector participation and mobilisation of private sector investment to further the national aim of rejuvenation of the river Ganga.

Figure 1: Objectives of NMCG and UP JAL NIGAM

Government of India has approved the Namami Gange program as an integrated approach for effective abatement of pollution in river Ganga. As part of this and to ensure that no untreated domestic sewage flow into the river Ganga, various interventions are planned such as Interception & Diversion works and development & operation of Sewage Treatment Plants (STPs). Considering various development models in practice for the construction, operation and maintenance of Sewage Treatment Plants, Government of India has approved the Hybrid Annuity based Public Private Partnership (PPP) mode as one of the options for the development & operation of STPs. Under this model, private investor/developer will design, build, finance, operate and transfer the asset (STP) to the Project Executing Agency/Jal Nigam/Jal Sansthan / Urban Local body at the end of the Concession Period (say 15 years). 40% of the Capital cost will be paid to the developer during construction of the STP. Balance 60% along with Operation & Maintenance (O&M) cost will be paid over the Concession Period on achievement of key performance

indicators as per the contract. Entire cost of development and operation of the STPs will be 100% funded by the Government of India as central sector scheme. It is also envisaged to explore the possibility of recycle/ reuse of the treated waste water for non-potable purpose.

NMCG & UPJN appointed M/s. Mahindra Consulting Engineers Limited, Chennai as Project Engineer for this project through tendering process. Letter of Award is issued dated 5<sup>th</sup> January 2018 and agreement signed between the parties on 16<sup>th</sup> February 2018.

#### 1.1. Project components

#### 1.1.1. New construction units

- Inlet structure
- Grit chambers & Parshall flume
- SBR tanks
- Chlorine contact tank
- Overhead treated water tank
- Air blower room
- Belt filter press building
- Chlorination building
- Electrical building and control room
- o Admin building, laboratory room
- Transformer yard, internal roads & drainage
- Treated water pump house
- Treated effluent disposal line
- Bund wall
- Staff guarters with 25KLD OHT
- Approach road

#### 1.1.2. Rehabilitation works

- Rehabilitation of Main Pumping Station (MPS)
- o Construction of Weir
- o Strengthening & Pipe protection of Rising main
- Construction of Control room
- Rerouting the raising main near Samne Ghat

#### 1.2. Executing agency

Uttar Pradesh Jal Nigam (UPJN)

#### 1.3. Implementation agency

Uttar Pradesh Jal Nigam (UPJN)

#### 1.4. Consulting services

- Project Engineer
  - Mahindra Consulting Engineers Ltd, Chennai

#### 1.5. Concessionaire

Varanasi STP Project Private Limited

#### 2.0. STATUS OF PROJECT

STATUS : CONSTRUCTION STAGE

Concessionaire Contract : SUBIN-DLDL80840374672746341531P

Agreement No.

Name of the Concessionaire : Varanasi STP Project Pvt. Ltd.

Commencement date : 19<sup>th</sup> February 2018

Completion date (as per contract): 18<sup>th</sup> November 2019

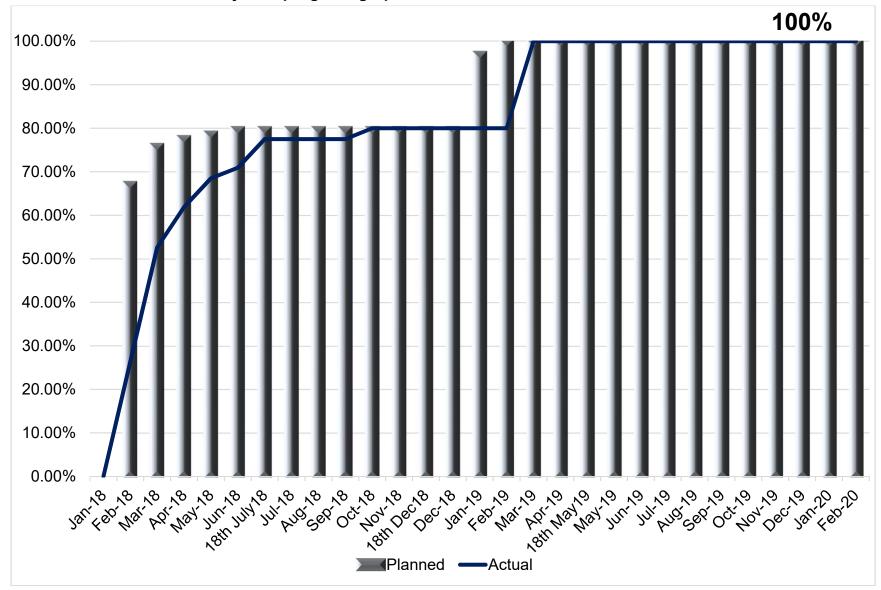

## 2.1. Physical status

### 2.1.1. Pre-execution activities

	As per s	chedule	Physical status

# 2.3. The issues, the action taken, and status are provided after obtaining the views from UPJN

## 2.3.1. Issues identified during this month

S. No	Issues identified during this month	
1.	As per approved construction plan entire construction	
	completion should have been completed by VSPPL on	
	or before 18th November 2019 whereas remaining	
	works around 22% yet to be achieved by VSPPL.	
	VSPPL could not able to achieve the progress due to	
	their internal financial problem with the lender.	
	However, it was resolved during 27th December 2019	
	meeting with YES bank. VSPPL assured to achieve	
	the construction completion on or before 31st March	
	2020. But due to subcontractors issue the works are	
	not progressing to the expected level (as per recovery	
	plan) and hence there are chances for further delay	
	upto 2 to 3 months. Further to the meeting UPJN had	
	with NMCG, it was decided to ensure the construction	
	completion on or before 20 <sup>th</sup> April 2020 and requested	
	VSPPL to provide the action plan / revised	
	construction plan for better monitoring purpose.	

#### 2.3.2. Issues identified till last month

S. No.	Issues identified till last month	Action Taken	Status
1	Planning to expedite the pending order	In progress.	Partially
	placement and completion of		initiated
	engineering activities		
2	Steps to complete the rising main	Work is in progress	Partially

	confirm to the scope as per Schedule 1 of the			
	Concession Agreement.			
5.3	The basic engineering drawings in the above case	Yes	Yes	Yes
	shall mean the designs and documents to be			
	submitted by the Concessionaire & approved by			
	the Uttar Pradesh Jal Nigam as a Condition			
	Precedent & shall include but not limited to:			
	a) Conduct kick off meeting, scrutiny of			
	contractor's submittals			
	b) Process description, process calculations and			
	hydraulic calculations;			
	c) List of design codes and standards;			
	d) Master drawing schedule;			
	e) Drainage design;			

	Activities carried out as per TOR				
			Period: January 2020 to Marcl	h 2020	
Clause		Undertaken			
as per	Scope	till previous	Undertaken during this	Expected for next	
TOR		month –	month – February 2020	month March 2020	
		January 2020			
	f) STP Facilities layout;				
	g) Process flow diagram;				
	h) Hydraulic flow diagram;				
	i) Mass balance diagram;				
	j) Process and instrumentation diagram;				
	k) Single line diagram;				
	Electrical load list; and				
	m) General arrangement diagrams of all units of				
	facilities and associated infrastructure				
5.4	The project engineer shall review any modified	Yes	Yes	Yes	
	Drawings or supporting documents sent to it by				
	the Concessionaire and furnish its comments				
	within 10 (ten) days of receiving such drawings or				
	documents.				
5.5	The project engineer shall review the detailed	Yes	Yes	Yes	
	design, construction methodology, quality				
	assurance procedures and the procurement,				
	engineering and construction time schedule sent				
	to it by the Concessionaire and furnish its				
	comments within 10 (ten) days of receipt thereof.				
5.6	Upon reference by the NMCG/Uttar Pradesh Jal	NA	NA	NA	
	Nigam, the Project Engineer shall review and;				
	comment on the EPC Contract or any other				

	Activities ca	rried out as per	TOR	
		ı	Period: January 2020 to Marc	h 2020
Clause as per TOR	Scope	Undertaken till previous month – January 2020	Undertaken during this month – February 2020	Expected for next month March 2020
	contract for construction, operation and maintenance of the Project, and furnish its comments within 10 (ten) days from receipt of such reference from the NMCG/Uttar Pradesh Jal Nigam.			
6.1	In respect of the designs drawing & documents received by the project engineer for its review and comments during the construction period, the provisions of paragraph 4 shall also apply, mutatis mutandis	Yes	Yes	Yes
6.2	The Project Engineer shall review, and assist the Uttar Pradesh Jal Nigam in reviewing the submissions by the concessionaire, the Construction plan as defined in clause 7.3 of the Concession Agreement including Phase 1 and Phase II drawings, as well as the 'As Built' drawings on completion and EHS plans as defined in clause 7.4 of the Concession Agreement	Yes	Yes	Yes
6.3	The Project Engineer shall assist the Uttar Pradesh Jal Nigam submit their comments on effectiveness or otherwise of the Work plan submitted for meeting the specified payment	Yes	Yes	Yes

	Activities ca	rried out as per	TOR	
			Period: January 2020 to March	2020
Clause		Undertaken		
as per	Scope	till previous	Undertaken during this	Expected for next
TOR		month –	month – February 2020	month March 2020
		January 2020		
	milestones and completion of the work on or			
	before the scheduled construction completion			
	date			
6.4	The Project Engineer shall review, in particular,	Yes	Yes	Yes
	the submissions by the Concessionaire as per			
	Schedule 1 of the Concession Agreement, and			
	assist Uttar Pradesh Jal Nigam in assessing the			
	effectiveness them			
6.5	The Project Engineer shall review the monthly	Yes	Concessionaire not yet	Yes
	progress report furnished by the Concessionaire		submitted progress report for	
	and send its comments thereon to the NMCG /		the month of February 2020.	
	Uttar Pradesh Jal Nigam and the Concessionaire		However, the report was	
	within 7 (seven) days of receipt of such report		prepared by Project Engineer	
6.6	The Project Engineer shall inspect the	Yes	Yes	Yes
	Construction Works and the Project as & when			
	necessary and submit a report of such inspection			
	(the "Inspection Report"), preferably after receipt			
	of the monthly progress report from the			
	Concessionaire, but before the 20th (twentieth)			
	day of each month in any case. The report shall			
	contain, an overview of the status, progress,			
	quality and safety of construction, including the			
	work methodology adopted, the materials used			

	Activities ca	rried out as per	TOR	
			Period: January 2020 to Marcl	h 2020
Clause		Undertaken		
as per	Scope	till previous	Undertaken during this	Expected for next
TOR		month -	month – February 2020	month March 2020
		January 2020		
	and their sources, and conformity of Construction			
	Works with the Scope of the Project and the			
	Specifications and Standards. In a separate			
	section of the Inspection Report, the Project			
	Engineer shall describe in reasonable detail the			
	lapses, defects or deficiencies observed by it in			
	the construction of the Project. The Project			
	Engineer shall send a copy of its Inspection			
	Report to the NMCG/UPJN & the Concessionaire			
	within 3 (three) days of the inspection			
6.7	However serious lapses, defects and/or	Yes	Yes	Yes
	deficiencies shall be reported to the Uttar Pradesh			
	Jal Nigam/NMCG immediately without waiting for			
	the monthly progress submissions as mentioned			
	in the previous paragraph			
6.8	For determining that the Construction Works	Yes	Yes	Yes
	conform to Specifications and Standards, the			
	Project Engineer shall require the Concessionaire			
	to carry out, or cause to be carried out, tests on a			
	sample basis, to be specified by the Project			
	Engineer in accordance with approved			
	norms/Good Industry Practice for quality			
	assurance. The Project Engineer shall issue			

	Activities carried out as per TOR				
			Period: January 2020 to March	2020	
Clause		Undertaken			
as per	Scope	till previous	Undertaken during this	Expected for next	
TOR		month -	month – February 2020	month March 2020	
		January 2020			
	necessary directions to the Concessionaire for				
	ensuring that the tests are conducted in a fair and				
	efficient manner, and shall monitor and review the				
	results thereof				
6.9	The timing of tests referred to in Paragraph 6.8,	Yes	Yes	Yes	
	and the criteria for acceptance/ rejection of their				
	results shall be determined by the Project				
	Engineer in accordance with the norms /rules and				
	Good Industry Practice. The tests shall be				
	undertaken on a random sample basis and shall				
	be in addition to, and independent of, the tests that				
	may be carried out by the Concessionaire for its				
	own quality assurance in accordance with Good				
	Industry Practice				
6.10	In the event that the Concessionaire carries out	Yes	Yes	Yes	
	any remedial works for removal or rectification of				
	any defects or deficiencies, the Project Engineer				
	shall require the Concessionaire to carry out, or				
	cause to be carried out, tests to determine that				
	such remedial works have brought the				
	Construction Works into conformity with the				
	Specifications and Standards, and the provisions				
	of this Paragraph 5 shall apply to such tests				

	Activities carried out as per TOR			
		F	Period: January 2020 to March	n 2020
Clause		Undertaken		
as per	Scope	till previous	Undertaken during this	Expected for next
TOR		month –	month – February 2020	month March 2020
		January 2020		
6.11	In the event that the Concessionaire fails to	Yes	Yes	Yes
	achieve any of the Project Milestones, the Project			
	Engineer shall undertake a review of the progress			
	of construction and identify potential delays, if any.			
	If the Project Engineer identifies that completion of			
	the Project is not feasible within the time specified			
	in the Concession Agreement, it shall require the			
	Concessionaire to indicate within 15 (fifteen) days			
	the steps proposed to be taken to expedite			
	progress, and the period within which COD shall			
	be achieved. Upon receipt of a report from the			
	Concessionaire, the Project Engineer shall review			
	the same and send its comments to the NMCG/			
	Uttar Pradesh Jal Nigam and the Concessionaire			
	forthwith.			
6.12	If at any time during the construction period, the	NA	NA	
	Project Engineer determines that the			
	Concessionaire has not made adequate			
	arrangements for the safety of workers and			
	common public in the zone of construction or that			
	any work is being carried out in a manner that			
	threatens the safety of the workers and the			
	common public, it shall make a recommendation			

	Activities carried out as per TOR				
		I	Period: January 2020 to Marc	h 2020	
Clause		Undertaken			
as per	Scope	till previous	Undertaken during this	Expected for next	
TOR		month -	month – February 2020	month March 2020	
		January 2020			
	to the NMCG/ Uttar Pradesh Jal Nigam forthwith,				
	identifying the whole or part of the Construction				
	Works that should be suspended for ensuring				
	safety in respect thereof.				
6.13	In the event that the Concessionaire carries out	NA	NA		
	any remedial measures to secure the safety of				
	suspended works and common public, it may, by				
	notice in writing, require the Project Engineer to				
	inspect such works, and within 3 (three) days of				
	receiving such notice, the Project Engineer shall				
	inspect the suspended works and make a report				
	to the NMCG/ Uttar Pradesh Jal Nigam forthwith,				
	recommending whether or not such suspension				
	may be revoked by the NMCG/ Uttar Pradesh Jal				
	Nigam.				
6.14	If suspension of Construction Works is for reasons	NA	NA		
	not attributable to the Concessionaire, the Project				
	Engineer shall determine the extension of dates				
	set forth in the project completion schedule, to				
	which the Concessionaire is reasonably entitled,				
	and shall notify the NMCG/ Uttar Pradesh Jal				
	Nigam and the Concessionaire of the same				
6.15	Upon reference from the NMCG/ Uttar Pradesh	NA	NA		

	Activities carried out as per TOR				
			Period: January 2020 to Marc	h 2020

#### 5.0. STAFF DEPLOYMENT

The work had commenced on 15.02.2018 the same has been communicated to NMCG vide letter number P968:8230 dated 05.03.2018.

The Project Engineer office shifted on 20/06/2018 at the following address in Varanasi:

#### **Mahindra Consulting Engineers Limited**

"K Lion Enclave",

"A "Block,

Flat No: 118, 1st Floor,

Opposite to Vishal Mega Mart,

Nevada, Sundarpur,

Varanasi – 221005,

Uttar Pradesh.

The position of staff deployment since beginning of the project till end of April 2019 is given in the following table:

SI.	Staff deployed on	site at Ramana, Varanasi	Date of de	ployment
No.	Designation	Name of staff	From	То
1	Team Leader	Jiut Bundhan Rai (Additional	07/05/2018	
		deployment)		
2	Project Manager	G. Sathiskumar	19/02/2018	21/05/2018
		(As per agreement)		
3	Civil Engineer	M. Sivapriyan (Additional	15/02/2018	27/01/2020
		deployment)		
4	Civil Engineer	T. Sathyamoorthy	20/04/2018	07/05/2018
		(As per agreement)		
5	Civil Engineer	P. Ramasubramanian	20/04/2018	27/11/2018
		(Additional deployment)		
6	Civil Engineer	Imran Khadhar Mohideen	20/04/2018	
		(Additional deployment)		
7	Structural Engineer	S. Varun Athithiya	20/04/2018	
		(Additional deployment)		
8	Senior Engineer	R. Satish	20/04/2018	28/05/2018
	(Electrical &	(As per agreement)	04/03/2019	
	Instrumentation)			
9	Structural Engineer	M. Vishnukumar	24/09/2018	31/12/2019

10	Electrical Engineer	K.Ganesh (As per agreement)	11/10/2018	13/10/2018
11	Liaison Officer	O. B. Shivakumar (Additional deployment)	20/04/2018	08/07/2018
12	QA QC Expert /Safety	L. Selva Kumar (Additional deployment)	29/05/2018 17/07/2019	07/04/2019 20/07/2019
13	Mechanical Engineer	A.Robin (As per agreement)	27/01/2020	29/02/2020

### ANNEX - 1 PROJECT PROGRESS (PHYSICAL)

\_

#### **ANNEX 1 - PROJECT PROGRESS (PHYSICAL)**

SI.	Component	Scheduled till 18 <sup>th</sup>	Percentage			
No.	/ Package	November 2019	Previous month	During month	Total	Remarks
1	2	3	4	5	6	7
	Development of sewage treatment plant and associated infrastructure under Hybrid Annuity based PPP mode at Varanasi	100%	79.91%	2.33%	82.24%	As per approved construction plan entire construction completion should have been completed by VSPPL on or before 18th November 2019 whereas remaining works around 22% yet to be achieved by VSPPL. VSPPL could not able to achieve the progress due to their internal financial problem with the lender. However, it was resolved during 27th December 2019 meeting with YES bank. VSPPL assured to achieve the construction completion on or before 31st March 2020. But due to subcontractors issue the works are not progressing to the expected level (as per recovery plan) and hence there are chances for further delay upto 2 to 3 months. Further to the meeting UPJN had with NMCG, it was decided to ensure the construction completion on or before 20th April 2020 and requested VSPPL to provide the action plan / revised construction plan for better monitoring purpose.

### ANNEX – 2 FINANCIAL STATEMENTS

# ANNEX – 7 **DELAY ANALYSIS & RECOVERY PLAN**

#### ANNEX 7 – DELAY ANALYSIS & RECOVERY PLAN

### Delay analysis and recovery plan:

The following activities are delayed as per the approved construction plan beyond 15 days from the targeted the completion date. The reason for the delay is analyzed in all aspects and the possible recovery plan also arrived to complete the pending activities within 30 days. It is to be noted that the recovery plan is provided only for the delayed activities and hence the concessionaire should plan and provide the additional manpower, Machinery and equipment in addition to the resources available at site for regular activities as per construction plan.

#### 1. Summary of delay analysis

Item of work	Scheduled start date as per approved construction plan	Scheduled completion date as per approved construction plan	Delay analysis	Recovery / Mitigation plan
Design Detailed Engineering	11-Oct-17	30-Oct-18	Drawing submitted by the concessionaire after the due date, indicates the lack of planning.  Approval from IIT is pending for some of the items.	However, concessionaire started the works
			Mechanical drawing for overall piping	Concessionaire to plan for revised drawing & submission as per observation on or before 15th March 2020 for the following.  • Mechanical drawing for overall piping
Associated infrastructure works	20-Mar-18	18-May-19	Delay in receipt for existing structure as built drawings. And delay in site investigation are the main reason  Concessionaire started the CCTV inspection of existing rising main	UPJN not provided existing structure as built drawings  Work is in progress

		Scheduled		
Item of work	Scheduled start date as per approved construction plan	completion date as per approved construction plan	Delay analysis	Recovery / Mitigation plan
			Treated water effluent pipeline works	Work is in progress
			Hydro testing of pipes already laid is delayed unduly due to lack of planning, manpower, equipment.	Concessionaire to plan to start the hydro testing by 5 <sup>th</sup> March 2020
			Strengthening the raising main including pile foundation	Only 46% work is completed. Concessionaire to plan to start the same by 5 <sup>th</sup> March 2020
			Electrical panel room	Work is in progress
			Construction of Weir	Concessionaire to plan to start the hydro testing by 15 <sup>th</sup> March 2020
Equipment Procurement, Logistics and receipt of equipment at Site	24-May-18	5-Sep-19	Data sheet and GA drawings for the following items are pending due to lack of planning  • MS/CS/SS/GI/CI/DI Piping  • PLC panel (balance items)	Partially initiated
		Civil Exec	//	
Bund Wall / Earthen Embankment	19-Feb-18	30-Aug-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to start the work on or before 5 <sup>th</sup> March 2020 and they are planning to complete the same on or before 31 <sup>st</sup> March 2020.
Inlet Chamber Manual & Mechanical Screen Chamber, Grit Chamber & Outlet Channel of Grit Chamber	03-June-18	30-Jun-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before 15 <sup>th</sup> February 2020

Item of work	Scheduled start date as per approved construction plan	Scheduled completion date as per approved construction plan	Delay analysis	Recovery / Mitigation plan	
& Parshall Flume (I) & Distribution Chamber of SBR Basin					
Construction of CCT including Chlorination room & Treated water pump House	26-Apr-18	24-Aug-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before 20 <sup>th</sup> February 2020	
Final Outfall Chamber	19-May-19	03-Aug-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to start the work on or before 5 <sup>th</sup> March 2020 and they are planning to complete the same on or before 5 <sup>th</sup> April 2020.	
Overhead treated water tank	1-Jun-18	1-Aug-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before April 2020	
Construction of BFP Building, Filtrate Pump, Pump house – 2, PE dosing tank	15-Oct-18	13-Jul-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before April 2020	
Administrative Building including lab and workshop	08-Jun-18	11-Jul-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before 30 <sup>th</sup> March 2020	
Staff Quarters	08-Jun-18	16-Nov-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to complete the work on or before April 2020	
Road & Drainage work	03-Jun-19	31-Aug-19	Lack of planning and lack of full utilization of equipment & manpower	VSPPL informed that they are planning to start the work on or before 15 <sup>th</sup> March 2020 and they are
