## MONTHLY PROGRESS REPORT

#### 1.0. INTRODUCTION

The Gol, recognizing that long-term rejuvenation of the river Ganga will have significant social and economic benefits on the lives of the 500 million people living along its basin, has identified cleaning of the river Ganga as one of its priorities. For this purpose, in May 2015, the Gol approved the flagship Namami Gange programme for cleaning, rejuvenation, and protection of the river Ganga. In January 2016, the Gol approved a hybrid annuity model to implement STP projects under the Namami Gange programme on a PPP basis.

Subsequently, the MoWR issued the River Ganga (Rejuvenation, Protection and Management) Authorities Order, 2016 (Ganga 2016 Order) to constitute various authorities to assist the Gol in achieving its aim of effective abatement of pollution in the river Ganga. The Ganga 2016 Order applies to all states in the catchment of the river Ganga basin, including Uttar Pradesh. The Ganga 2016 Order revised the legal status of NMCG (which was initially constituted as a registered society under the Societies Registration Act, 1860) to an authority constituted under the Environment (Protection) Act, 1986 and designated NMCG as the nodal agency for the implementation of the Ganga 2016 Order.

Rapidly increasing population, rising standards of living and exponential growth of industrialisation and urbanisation have exposed water resources, in general, and rivers to various forms of degradation. The mighty Ganga is no exception. The deterioration in the water quality impacts the people immediately. Ganga, in some stretches, particularly during lean seasons has become unfit even for bathing. The threat of global climate change, the effect of glacial melt on Ganga flow and the impacts of infrastructural projects in the upper reaches of the river, raise issues that need a comprehensive response.

In the Ganga basin approximately 12,000 million litres per day (MLD) sewage is generated, for which presently there is a treatment capacity of only around 4,000 MLD. Approximately 3000 MLD of sewage is discharged into the mainstream of the river Ganga from the Class I & II towns located along the banks, against which treatment capacity of about 1000 MLD has been created till date.

The Uttar Pradesh Jal Nigam (Jal Nigam) is a statutory body constituted under the Uttar Pradesh Water Supply and Sewerage Act, 1975, and has the power to develop, maintain and regulate water supply and sewerage works in Uttar Pradesh. With a view to implement the Namami Gange programme and the Ganga 2016 Order, the Jal Nigam, in association with the NMCG, has decided to undertake the development of an STP with a proposed capacity of 50 MLD along with other Facilities and Associated Infrastructure at Varanasi on a PPP basis, through a hybrid annuity model. While the Jal Nigam will be the principal executing agency and bidding authority for the Project, NMCG will be responsible for making payments to the Concessionaire.

The objectives that NMCG and the UP Jal Nigam wish to achieve through the Project is mentioned in **Figure 1**.

Intercept raw sewage flowing into the river Ganga and divert the raw sewage to the Varanasi STP;

Treatment of the raw sewage at the Varanasi STP;

Implement viable technologies and international best practices for development, operation and maintenance of the Varanasi STP and other facilities and

Demonstrate large scale private sector participation and mobilisation of private sector investment to further the national aim of rejuvenation of the river Ganga.

#### Figure 1: Objectives of NMCG and UP JAL NIGAM

Government of India has approved the Namami Gange program as an integrated approach for effective abatement of pollution in river Ganga. As part of this and to ensure that no untreated domestic sewage flow into the river Ganga, various interventions are planned such as Interception & Diversion works and development & operation of Sewage Treatment Plants (STPs). Considering various development models in practice for the construction, operation and maintenance of Sewage Treatment Plants, Government of India has approved the Hybrid Annuity based Public Private Partnership (PPP) mode as one of the options for the development & operation of STPs. Under this model, private investor/developer will design, build, finance, operate and transfer the asset (STP) to the Project Executing Agency/Jal Nigam/Jal Sansthan / Urban Local body at the end of the Concession Period (say 15 years). 40% of the Capital cost will be paid to the developer during construction of the STP. Balance 60% along with Operation & Maintenance (O&M) cost will be paid over the Concession Period on achievement of key performance indicators as per the contract. Entire cost of development and operation of the STPs will be 100% funded by the Government of India as central sector scheme. It is also envisaged to explore the possibility of recycle/ reuse of the treated wastewater for non-potable purpose.

NMCG & UPJN appointed M/s. Mahindra Consulting Engineers Limited, Chennai as Project Engineer for this project through tendering process. Letter of Award is issued dated 5<sup>th</sup> January 2018 and agreement signed between the parties on 16<sup>th</sup> February 2018.

#### 1.1. Project components

#### 1.1.1. New construction units

- Inlet structure
- Grit chambers & Parshall flume
- SBR tanks
- Chlorine contact tank
- Overhead treated water tank
- Air blower room

- Belt filter press building
  - Chlorination building
  - Electrical building and control room
  - Admin building, laboratory room
  - o Transformer yard, internal roads & drainage
  - Treated water pump house
  - Treated effluent disposal line
  - o Bund wall
  - o Staff quarters with 25KLD OHT
  - Approach road

#### 1.1.2. Rehabilitation works

- Rehabilitation of Main Pumping Station (MPS)
- Construction of Weir
- Strengthening & Pipe protection of Rising main
- Construction of Control room
- Rerouting the raising main near Samne Ghat

### 1.2. Executing agency

Uttar Pradesh Jal Nigam (UPJN)

#### 1.3. Implementation agency

Uttar Pradesh Jal Nigam (UPJN)

#### 1.4. Consulting services

- Project Engineer
  - Mahindra Consulting Engineers Ltd, Chennai

#### 1.5. Concessionaire

Varanasi STP Project Private Limited

#### 2.0. STATUS OF PROJECT

STATUS : OPERATION AND MAINTENANCE STAGE

Concessionaire Contract : SUBIN-DLDL80840374672746341531P

Agreement No.

Name of the Concessionaire : Varanasi STP Project Pvt. Ltd.

Commencement date : 19<sup>th</sup> February 2018

Completion date (as per contract) : 18<sup>th</sup> November 2019

Commercial Operation Date (COD) : 30<sup>th</sup> November 2021

O& M Commencement date : 1st December 2021

O&M completion date (As per contract) : 30<sup>th</sup> November 2036

Commercial Operation Date (COD) was announced by UPJN as per letter no. 2406/Namami Gange/292 dated 30<sup>th</sup> December 2021 based on the undertaking provided by the Concessionaire to complete the remaining pending works on or before 31<sup>st</sup> January 2022 and in case of failure, then the annuity and O&M payment shall be withheld until the completion of all works. Accordingly, O&M period starts from 1<sup>st</sup> December 2021.

#### 2.1. Status of this month

Due to flood near MPS plant has been completely shut down.

#### 3.0. O&M personnel

VSPPL has deployed following O&M personnel for carrying out the obligations during Operation and Maintenance period.

## 3.1. O &M personnel - MPS &STP

No. of O&M staff deployed

#### 5.0. **O&M Monitoring**

During O&M period the following activities are being monitored on a continuous basis and the status of each activity during this month is provided below.

- Availability
- Influent Standards and Discharge Standards
- Disposal of STP By-Products and the Treated Effluent
- Power consumption

#### 5.1. **Availability**

All the facilities and the Associated infrastructure to be available at 100% level during all period of O&M except the scheduled maintenance period. During scheduled maintenance period the availability of Facilities and Associated infrastructure should not be less than 95%.

#### 5.2. Flow measurement details

Flow measurement details provided by the Concessionaire based on flowmeter readings (online monitoring) for both MPS, STP inlet, outlet, and overflow at Assi nalla weir is provided in Annexure A & B The below tables provides the date during which the guaranteed availability is not met by the Concessionaire based on the data acquired.

Note: - The flow meter yet to be installed at Assi nalla for measuring the overflow at the Weir. Hence no data available as on date.

#### 5.3. Main pumping station

DATE	Cumulative flow at MPS pump outlet	Cumulative overflow on the weir at Assi Nalla	Whether non-availability liquidated damage is applicable based on cumulative flow pumped (if cumulative pumped flow is less than 50 MLD and overflow occurs at weir then yes otherwise no	Hours for which the Associated Infrastructure were	not Available	Reason
	JW IN	IN ML		Hrs.	Min	Unscheduled outage/Suspensio n of O&M services due to the reasons attributable for the Concessionaire /Emergency attributable to the Concessionaire
			Not applicable	for this mor	nth	

#### 5.4. Sewage treatment plant

	Cumulative flow at STP Plant Inlet	y liquidated based on (if cumulative n 50 MLD and ir then yes	Hours for which the	were not Available	Reason for non- availability
DATE	IN ML	Whether non-availability liquidated damage is applicable based on cumulative flow pumped (if cumulative received flow is less than 50 MLD and overflow occurs at weir then yes otherwise no)	Hrs.	Min	Unscheduled outage / power outage/Suspension of O&M services due to the reasons attributable for the Concessionaire /Emergency attributable to the Concessionaire
		Not applicable for	or this mo	nth	

#### 5.5. Scheduled Maintenance

Concessionaire has submitted the scheduled maintenance and hence availability should be always 100% during this month

Maintenance works did not take place according to the plan submitted by Concessionaire.

However, the maintenance work has been carried out by the Concessionaire is given in  ${\bf Annexure}\;{\bf C}$ 

### 5.6. Details of notices issued by the Executing Agency (UPJN) towards Non-Availability

Date of issue of notice	Reason for notice	Remedial action taken by VSSPL	Date of remedial action taken by VSPPL					
Not issued for this month								

#### 5.7. Maintenance and Repair of the Facilities and the Associated Infrastructure

Date	VSPPL letter ref.	Details of Maintenance and Repair	Reason					
Not provided by VSPPL for this month								

#### 5.8. Non-Availability liquidated damages

Applicable non availability liquidated damage for this month is provided below:

	Value	
Parameter	All the period other than scheduled maintenance period	During scheduled maintenance period
Associ	ated infrastructure – MPS	
Guaranteed Availability	100%	95%
Hours in the month for which the	•	-
Facilities and/or the Associated		
Infrastructure was not Available (A1)		
Number of days (B1)	30	NA
Non availability (C1) = $\{A1/(B1*24)\} *100$	-	-
LD for nonadherence in INR for	-	-
associated infrastructures = C1 x 30000		
	STP	
Sewage treatment plant		
Guaranteed Availability	100%	95%
Hours in the month for which the	-	-
Facilities and/or the Associated		
Infrastructure was not Available (A2)		
Number of days (B2)	30	NA
Non availability (C2) = $\{A2/(B2*24)\}$ *100	-	-
LD for nonadherence in INR for	-	-
associated infrastructures = C2 x 30000		
Total LD for nonadherence = C1 + C2	-	

**Note:** Not applicable for this month

#### 5.9. Influent & Effluent (Discharge) standards

#### 5.9.1. Influent standards

Influent standard tested through i) the daily average of real time values of respective online instruments/analyzers ii) Daily lab test report through 24-hour composite sampling iii) At least one sample tested through National Accredited Board for testing and calibration Laboratory (NABL) recognized by CPCB/SPCB as submitted by the Concessionaire is provided in **Annexure D** 

**Note:** - The daily average of real time values of respective online instruments/analyzers reports are not submitted in a format shared by UPJN/PE and sample tested through National Accredited Board for testing and calibration Laboratory (NABL) recognized by CPCB/SPCB are not submitted by the Concessionaire. Hence the comparison of daily average real time value vs lab test report through 24-hour composite sampling of raw sewage (influent) is not made.

	рН	BOD	COD	TSS	TKN	TP	рН	BOD	COD	TSS	TKN	TP	

It's clearly stated based on the available lab test report the influent parameters did not exceed the limit specified in the Concession agreement and hence there is no exemption on the treated effluent parameters due to high concentration of raw sewage.

#### 5.9.2. Treated effluent standards

Treated effluent standard tested through i) the daily average of real time values of respective online instruments/analyzers ii) Daily lab test report through 24-hour composite sampling iii) At least one sample tested through National Accredited Board for testing and calibration Laboratory (NABL) recognized by CPCB/SPCB as submitted by the Concessionaire is provided in **Annexure D** 

**Note:** - The daily average of real time values of respective online instruments/analyzers are not submitted in a format shared by UPJN/PE and sample tested through National Accredited Board for testing and calibration Laboratory (NABL) recognized by CPCB/SPCB are not submitted by the Concessionaire. Hence the comparison of daily average real time value vs lab test report through 24-hour composite sampling of Treated Effluent is not made. This is because the Concessionaire did not submit the Online Analyzer Reports as per the format shared by PE/UPJN.

	24-hour composite sampling values						Online Analyser values								
Remarks	Fecal	ПР	COD	NH4-N	NL	TSS	вор	<100	겡	< <u>5</u> 0	<b>%</b>	01≥	1 ≥ 10	N 10	Acceptable range

	mL Fecal	ТР	COD	1		TSS	BOD	100 mL Fecal	TP	COD	<u> </u>		TSS	BOD	

#### 5.9.3. Digested sludge

The sludge generated along with outlet concentration and fecal coliform during this month provided in **Annexure E**. The below table provides the details of nonadherence of KPI

Date	Quantum of digested sludge in Cum	Outlet Concentration of dewatered sludge	Fecal coliform	Remarks						
		More than 20% solids	Less than 20,00,000 Most Probable Number per gram of total dry solids (20,00,000 MPN / GTS).							
	Not Applicable for this month									

## 5.10. Details of notices issued by the Executing Agency (UPJN) towards Noncompliance of KPI

Date of issue of	Reason for notice	Remedial action taken	Date of remedial action						
notice	Reason for notice	by VSSPL	taken by VSPPL						
Not issued for this month									

#### **5.11. Performance Liquidated Damages**

The treated effluent parameters are more than the limit specified in the KPI and the liquid damages for nonadherence of KPI is given below: -

SI. No.	Parameters	Non-adherence days	Liquidated damages per day in INR	Total liquidated damages for this month in INR
1	BOD	0	-	-
2	TSS	0	-	-
3	TN	0	-	-
4	NH4-N	0	-	-
5	COD	0	-	-
6	TP	0	-	-
7	Fecal Coliform	0	-	-
	Total Amount	0	-	-

The details of applicable liquidated damages for digester sludge given below:

SI. No.	Parameters	Non-adherence days	Liquidated damages per day in INR	Total liquidated damages for this month in INR
1	Outlet Concentration of	-	3000	-
	dewatered sludge			
2	Fecal coliform limit	-	3000	-
	Total Amount			-

**Note:** Not applicable for this month.

#### 5.12. Details of reports/compliance submitted to government authority by VSPPL

Not provided / Reported by VSPPL

### 5.13. Disposal of STP By-Products and the Treated Effluent

The executing agency, UPJN identified the waste disposal site at the following co-ordinates which is located within 10 km radius of the STP

#### 5.13.1. Disposal of Treated Effluent

Northing - 25°12'53.5"N Easting - 82°59'52.7"E

#### 5.13.2. Disposal of Residual Grit and Screenings

The Residual Grit and the Screenings are being disposed by the Concessionaire only at the waste disposal site identified by UPJN.

Northing - 25°14'29.6"N Easting - 83°00'17.5"E Total area: To be finalized

#### 5.13.3. Disposal of Digested Sludge

Details of digested sludge produced by the Concessionaire and its disposal is given below:

	Q	uantity in Cu	m	
Description	Till last month	During this month	Total till date	Remarks
Digested sludge produced	5499.80	-	5499.80	
Digested sludge disposed at the waste disposal site	5499.80	-	5499.80	
Digested sludge sold by the concessionaire		-	ı	
Revenue generated through selling of digested sludge in Rs		-	-	
Revenue shared to UPJN @50%		-	-	

Agency name to whom the digested sludge is being sold – Not Applicable

#### 5.13.4. Disposal of treated effluent

		Value in ML		
Description	Till last month	During this month	Total till date	Remarks
Treated effluent	12724.16	-	12724.16	
Treated effluent disposed in the River Ganga / irrigation area	12724.16	-	12724.16	
Treated effluent sold by the concessionaire		-	•	
Revenue generated through selling of treated effluent in Rs		-	1	
Revenue shared to UPJN @50%		-	-	

Agency name to whom the treated effluent is being sold – Not Applicable

#### 5.14. Power consumption

Guaranteed energy consumption quoted by the Concessionaire during bidding stage is given below:

BOD range in Mg/L	Flow upto 40 MLD	Flow >40 MLD and upto 45 MLD	Flow >45 MLD and upto 50 MLD	Flow >50 MLD		
Less than 130	118	122	124	124		
130 to 160	130	134	136	136		
160 to 190	142	146	148	148		
190 to 230	158	162	164	164		
>230	158	162	164	165		
Average guaranteed energy consumption (C)		14	45			

## Total limit of energy consumption as per guarantee provided by the Concessionaire

BOD range in Mg/L	Flow up to 40 MLD	Number of days occurred for this month	Cumulative flow for this month in MLD	Total energy consumption	Flow >40 MLD and up to 45 MLD	Number of days occurred for this month	Cumulative flow for this month in MLD	Total energy consumption as per guarantee	Flow >45 MLD and up to 50 MLD	Number of days occurred for this month	Cumulative flow for this month in MLD	Total energy consumption as per guarantee	Flow >50 MLD	Number of days occurred for this month	Cumulative flow for this month in MLD	Total energy consumption as per guarantee
				Α				В				С				D

#### 6.0. PROJECT ENGINEER ACTIVITIES

	Activities carried out a	as per TOR		
Clause		Period: Feb	ruary 2018 to Septem	ber 2022
as per TOR	Scope	Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
4.1 (i)	Review, analysis, and qualifying assessment of field investigations carried out and reported by the Concessionaire in respect of topographical surveys, hydraulic & hydrologic data verification, sub-surface investigation including laboratory testing and reports of geologists wherever applicable, investigation of construction material including lab testing.	Yes	NA	NA
4.1 (ii) 4.1 (iii)	Review, analysis and qualifying assessment of design memorandums, specifications and construction drawings prepared and submitted by the concessionaire.  Conduct kicks off meetings	Yes	NA	NA
4.1 (iv)	Review of the submissions of the Concessionaire such as  a. Work schedule b. Detailed survey report c. Basic engineering d. Detailed design and drawings for i) Civil works  1. Geo-tech reports 2. Lab testing reports 3. Third Party Inspection report ii) Mechanical & Electrical Works	Yes	NA	NA

	Activities carried out	as per TOR		
Clause		Period: Feb	ruary 2018 to Septem	ber 2022
as per TOR	Scope	Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	iii) Automation & Instrumentation works			
	iv) Any other allied works			
	e. QA/QC plans			
	f. Safety plan			
4.1 (v)	Review of the drawings and documents	Yes	NA	NA
4.1 (vi)	Identification of milestones & verifications		NA	NA
4.1 (vii)	To Assist NMCG for getting statutory permissions		NA	NA
4.1 (ix)	Review, inspection, supervision, and monitoring of construction works conducting tests on completion of construction and issuing completion / provisional certificate	Yes	NA	NA
4.1 (x)	Review, inspection, and monitoring of O&M	NA	Yes	Yes
4.1 (xi)	Determining, as required under the Concession Agreement, the costs of any works or services and/or their reasonableness	NA	NA	NA
4.1 (xii)	Determining, as required under the Concession Agreement, the period, or any extension thereof, for performing any duty or obligation	NA	NA	NA
4.1 (xiii)	Determining the events of default and guidance on consequent termination notices and payment as detailed in clauses 16.1 to 16.5 of the Concession Agreement	NA	NA	NA
4.1 (xiv)	Determine deficiencies in the commissioning & trial runs; prepare the final acceptance document for acceptance of commissioning & trial runs. Prepare & Issue Commercial	NA	Yes	

	Activities carried out a	•	ruary 2018 to Septem	nber 2022
Clause as per TOR	Scope	Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	Operation certificate through Uttar Pradesh Jal Nigam		·	
4.1 (xv)	Any other matter which is not specified in ((vi), (vii), or (viii) above and which creates an obligation or liability on the Employer / NMCG beyond the provisions of the Concession Agreement	NA	NA	NA
4.1 (xvi)	The Project Engineer shall submit regular periodic reports, as specified in the Concession Agreement to Uttar Pradesh Jal Nigam & NMCG, in respect of its duties & functions under the Concession Agreement	Monthly progress report	Monthly progress report	Preparation and review of monthly progress report
4.1 (xvii)	The Project Engineer shall aid and advise the Employer on any proposal for variation under Article 20 of the Concession Agreement	NA	NA	NA
4.1 xviii)	Assisting the Parties in resolution of Disputes	NA	NA	NA
4.1 (xix)	Assisting the employer in the fulfilment of Hand back requirements as detailed in clause 19.3 of the Concession Agreement		NA	NA
4.1 (xx)	Undertaking all other duties and functions in accordance with	As mentioned	As mentioned	As mentioned
	this agreement	above	above	above
4.2	The Project Engineer shall discharge its duties in an efficient manner, consistent with the highest standards of professionalism & Good Industry Practice	Yes	Yes	Yes
4.3(i)	The Project Engineer must function in a manner to assist & equip the employer to ascertain that the Concessionaire shall	Yes	Yes	Yes

Activities carried out as per TOR				
Clause	Scope	Period: February 2018 to September 2022		
as per TOR		Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	operate and maintain the Facilities and the Associated Infrastructure in a manner that: Is in compliance with the Technical Specifications, Applicable Laws, Applicable Permits and Good Industry Practice. Results in the Facilities and the Associated Infrastructure achieving the KPIs as detailed in schedule 10 of the Concession Agreement & certify within 7 days the KPI adherence Report as per clause 8.12 of the Concession Agreement:			
4.3(ii)	Ensures that the Varanasi STP are capable of treating Sewage up to the Design Capacity on a daily basis;	Yes	Yes	Yes
4.3(iii)	Ensures efficient treatment of Sewage & handling and disposal of STP By- Products and the Treated Effluent	NA	NA	NA
4.3(iv)	STPs are safe and reliable, subject to normal wear and tear of the Facilities and the Associated Infrastructure;	NA	NA	NA
4.3(v)	Is following the technology license agreement executed by the Concessionaire for the technology, processes, know-how and systems used or incorporated into the Facilities and/or the Associated Infrastructure	Yes	NA	NA
4.3(vi)	Maintains the safety and security of personnel, material, and property at the Site, in accordance with the approved EHS Plan, Applicable Laws and Applicable Permits.	Yes	NA	NA
4.3(vii)	Ensures that all waste materials and hazardous substances	Yes	NA	NA

Activities carried out as per TOR				
Clause	Scope	Period: February 2018 to September 2022		
as per TOR		Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	are stored and/or disposed in accordance with the EHS Plan, Applicable Laws, and Applicable Permits.			
4.4	Overall, The Project Engineer shall assist the Uttar Pradesh Jal Nigam in supervising the construction, rehabilitation, operation & maintenance of the Facilities and the Associated Infrastructure and shall work closely with the Uttar Pradesh Jal Nigam and NMCG to monitor compliance with the KPIs.	Yes	Yes	Yes
5.1	During the Development Period, the Project Engineer shall undertake a detailed review of the basic engineering Designs, furnished by the Concessionaire along with supporting data, including the geo-technical and hydrological investigations, characteristics of materials from borrow areas and quarry sites, topographical surveys, and Sewage Flow Analysis. The Project Engineer shall complete such review and send its comments / observations to the NMCG / Name of the Employer (i.e., State Institution) and the Concessionaire within 10 (ten) days of receipt of such Drawings. Such comments shall specify the conformity or otherwise of such Drawings with the Scope of the Project and Specifications and Standards	Yes	Yes	Yes
5.2	The Project Engineer shall review and assist the (Name of the Employer) in approval of the submissions by the concessionaire relating to the "design and Construction"	Yes	Yes	Yes

Clause	Scope	Period: February 2018 to September 2022		
Clause as per TOR		Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	Plan" to confirm to the scope as per Schedule 1 of the Concession Agreement.			
5.3	The basic engineering drawings in the above case shall mean the designs and documents to be submitted by the Concessionaire & approved by the Uttar Pradesh Jal Nigam as a Condition Precedent & shall include but not limited to:  a) Conduct kicks off meeting, scrutiny of contractor's submittals  b) Process description, process calculations and hydraulic calculations.  c) List of design codes and standards.  d) Master drawing schedule.  e) Drainage design.  f) STP Facilities layout.  g) Process flow diagram.  h) Hydraulic flow diagram.  i) Mass balance diagram.  j) Process and instrumentation diagram.  k) Single line diagram.  l) Electrical load list; and  m) General arrangement diagrams of all units of facilities and associated infrastructure	Yes	NA	NA

	Activities carried out as per TOR Period: February 2018 to September 2022				
Clause as per TOR	Scope	Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022	
5.4	The project engineer shall review any modified Drawings or supporting documents sent to it by the Concessionaire and furnish its comments within 10 (ten) days of receiving such drawings or documents.	Yes	NA	NA	
5.5	The project engineer shall review the detailed design, construction methodology, quality assurance procedures and the procurement, engineering and construction time schedule sent to it by the Concessionaire and furnish its comments within 10 (ten) days of receipt thereof.	Yes	NA	NA	
5.6	Upon reference by the NMCG/Uttar Pradesh Jal Nigam, the Project Engineer shall review and comment on the EPC Contract or any other contract for construction, operation, and maintenance of the Project, and furnish its comments within 10 (ten) days from receipt of such reference from the NMCG/Uttar Pradesh Jal Nigam.	NA	NA	NA

6.2	The Project Engineer shall review, and assist the Uttar Pradesh Jal Nigam in reviewing the submissions by the concessionaire, the Construction plan as defined in clause 7.3 of the Concession Agreement including Phase 1 and	Yes	NA	NA	

Clause	Scope	as per TOR Period: February 2018 to September 2022		
Clause as per TOR		Undertaken till previous month - August 2022	Undertaken during this month September 2022	Expected for next month October 2022
	Phase II drawings, as well as the 'As Built' drawings on completion and EHS plans as defined in clause 7.4 of the Concession Agreement			
6.3	The Project Engineer shall assist the Uttar Pradesh Jal Nigam submit their comments on effectiveness or otherwise of the Work plan submitted for meeting the specified payment milestones and completion of the work on or before the scheduled construction completion date	Yes	NA	NA
6.4	The Project Engineer shall review the submissions by the Concessionaire as per Schedule 1 of the Concession Agreement, and assist Uttar Pradesh Jal Nigam in assessing the effectiveness them	Yes	NA	NA
6.5	The Project Engineer shall review the monthly progress report furnished by the Concessionaire and send its comments thereon to the NMCG / Uttar Pradesh Jal Nigam and the Concessionaire within 7 (seven) days of receipt of such report	Yes	Yes	Yes
6.6	The Project Engineer shall inspect the Construction Works and the Project as & when necessary and submit a report of such inspection (the "Inspection Report"), preferably after receipt of the monthly progress report from the Concessionaire, but before the 20th (twentieth) day of each	Yes	NA	NA

Activities carried out as per TOR  Region: February 2018 to September 2022				
Clause		Period: February 2018 to September 2022		
as per	Scope	Undertaken till	Undertaken	Expected for
TOR		previous month -	during this month	next month
		August 2022	September 2022	October 2022
	month in any case. The report shall contain, an overview of			
	the status, progress, quality, and safety of construction,			
	including the work methodology adopted, the materials used			
	and their sources, and conformity of Construction Works with			
	the Scope of the Project and the Specifications and			
	Standards. In a separate section of the Inspection Report,			
	the Project Engineer shall describe in reasonable detail the			
	lapses, defects or deficiencies observed by it in the			
	construction of the Project. The Project Engineer shall send			
	a copy of its Inspection Report to the NMCG/UPJN & the			
	Concessionaire within 3 (three) days of the inspection			
6.7	However serious lapses, defects and/or deficiencies shall be	Yes	NA	NA
	reported to the Uttar Pradesh Jal Nigam/NMCG immediately			
	without waiting for the monthly progress submissions as			
	mentioned in the previous paragraph			
6.8	For determining that the Construction Works conform to	Yes	NA	NA
	Specifications and Standards, the Project Engineer shall			
	require the Concessionaire to carry out, or cause to be			
	carried out, tests on a sample basis, to be specified by the			
	Project Engineer in accordance with approved norms/Good			
	Industry Practice for quality assurance. The Project Engineer			
	shall issue necessary directions to the Concessionaire for			
	ensuring that the tests are conducted in a fair and efficient			

	Activities carried out a	as per TOR		
Clause				
as per TOR	Scope			Expected for next month October 2022
	manner, and shall monitor and review the results thereof			
6.9	The timing of tests referred to in Paragraph 6.8, and the criteria for acceptance/ rejection of their results shall be determined by the Project Engineer in accordance with the norms /rules and Good Industry Practice. The tests shall be undertaken on a random sample basis and shall be in addition to, and independent of, the tests that may be carried out by the Concessionaire for its own quality assurance in accordance with Good Industry Practice	Yes	NA	NA
6.10	If the Concessionaire carries out any remedial works for removal or rectification of any defects or deficiencies, the Project Engineer shall require the Concessionaire to carry out, or cause to be carried out, tests to determine that such remedial works have brought the Construction Works into conformity with the Specifications and Standards, and the provisions of this Paragraph 5 shall apply to such tests	Yes	NA	NA
6.11	If the Concessionaire fails to achieve any of the Project Milestones, the Project Engineer shall undertake a review of the progress of construction and identify potential delays, if any. If the Project Engineer identifies that completion of the Project is not feasible within the time specified in the Concession Agreement, it shall require the Concessionaire to indicate within 15 (fifteen) days the steps proposed to be	Yes	NA	NA

	Activities carried out a	as per TOR

### ANNEXURE - C MAINTENANCE WORK AT MPS & STP

-

#### Annexure C - Unscheduled maintenance work at MPS & STP

SI. No.	Location	Date	Remark
	MPS		
1	Grouting and filling of all raw sewage pump	03-Sep-2022	Done
2	Maintenance work of belt conveyor	19-Sep-2022	Done
	STP		
1	Maintenance & Cleaning of common channel (SBR) and CCT	2-Sep-2022	Done
2	Maintenance work of Treated water pump no.3 (found leakage		
	from bush)	7-Sep-2022	Done
3	Maintenance of poly dosing pipeline (Found abnormal sound		
	and vibration)	11-Sep-2022	Done
4	Maintenance & cleaning work grit mechanism 1&2	23-Sep-2022	Done
5	Maintenance & cleaning work RAS pump2	26-Sep-2022	Done
6	Change MCB at admin building JB	28-Sep-2022	Done

\_
